

ALSAN QUARTZ SAND

Description

ALSAN QUARTZ SAND is a mixture of quartz sand with different granulometric compositions to be used in Alsan PMMA systems.

Material

Kiln-dried, low-dust quartz sand mix.

Properties

- low-dust content
- mixture with selected granulometric compositions for optimum properties

Application

ALSAN QUARTZ SAND is used in Alsan PMMA systems

Packaging

25 kg bag

Colours

ALSAN QUARTZ SAND has the colour of sand (beige)

Storage

Store in original, sealed packaging, in a cool and dry place protected from moisture.

Technical data

Is available in different granulometric compositions:

- 0,2 – 0,6 mm
- 0,4 – 0,8 mm
- 0,8 – 1,2 mm

SOPREMA UK Limited and **SOPREMA Limited** reserve the right to amend the composition of its material and consequently their prices, without prior notice. For this reason, all orders will be accepted only in accordance with the conditions and technical specifications in force at the date of order.

Product application

See corresponding Alsan PMMA system.

Special indications

Quality and Environment Management

SOPREMA has always attached the highest importance to the quality of the products and the environment.

For this reason, we operate independently monitored Quality and Environment Assurance Systems in line with **EN ISO 9001** and **EN ISO 14001**.

General information

The above information, in particular the product application information, is based on extensive development and many years of experience. It's provided to the best of our knowledge. However, the wide range of requirements and conditions on site means that it may be necessary for the product to be tested under those conditions to ensure that it is suitable for the intended purpose. For further information and questions, contact **SOPREMA**.

Only the most recent version of the document is valid. We reserve the right to make changes to reflect advances in technology and improvements to our products.
