

**SOPREMA** HAS A RANGE OF SOLUTIONS FOR EVERY SECTOR:

**FLAT ROOFS**  
Fully reinforced bituminous waterproofing systems designed for flat roofing applications.

**BALLASTED ROOFS**  
Fully reinforced bituminous waterproofing systems designed for ballasted and inverted roofs.

**INSULATION**  
High performance thermal & acoustic solutions.

**INVERTED ROOFS**  
Fully reinforced structural waterproofing systems designed for flat roofing applications.

**GREEN ROOF**  
Fully reinforced systems for waterproofing under green roof installations.

**COMPLEX PROFILES**  
Decorative, reinforced synthetic waterproofing systems for complex profiles and facades.

**BALCONIES & WALKWAYS**  
Fully and partially reinforced systems for balconies and walkways.

**BARREL & DOME STRUCTURES**  
Fully reinforced bituminous waterproofing systems designed for barrel and dome structures.

**PARKING**  
Fully and partially reinforced systems capable of withstanding heavy vehicular traffic.

**PEDESTRIAN TRAFFIC**  
Fully and partially reinforced systems constructed to withstand consistent pedestrian traffic.

**BRIDGEDECKS**  
Robust waterproofing solutions for trafficable environments.

**PODIUM DECKS**  
Fully reinforced, flexible, structural waterproofing systems for podium decks.

**CURVED STRUCTURES**  
Flexible, reinforced synthetic waterproofing systems for curved, barrel and wave formed roofs.

**MONO PITCH**  
Aesthetic and functional waterproofing membranes for mono-pitch designs.

**BASEMENTS**  
Reinforced bituminous membranes and insulation for basement construction.

**SOPREMA** at your service:

**EXPERTISE,  
CERTIFICATION  
& SERVICE**

**WATERPROOFING  
& INSULATION SOLUTIONS  
FOR YOUR REFURBISHMENT  
PROJECTS**

**INDEPENDENT ACCREDITATION AND SINGLE POINT WARRANTY**

With extensive independent accreditation and certification including BBA, FM, WRAS, ISO 9001 and ISO 14001, in addition to an industry leading warranty offer, SOPREMA guarantee peace of mind for your project.

# WATERPROOFING AND INSULATION SOLUTIONS FOR REFURBISHMENT PROJECTS

When an existing waterproofing system on a flat roof has exceeded its performance life and is in need of replacement, there are a number of factors that need to be considered. At SOPREMA, we provide **bespoke specification** based on the needs of the customer offering effective solutions based on our expertise and extensive product range.

For all sectors including healthcare, education, leisure and residential, SOPREMA provide waterproofing and insulation solutions for refurbishment projects that meet strict health and safety requirements, is durable and within budget as well as offering a single point, industry leading warranty for complete peace of mind.

## HYBRID WATERPROOFING SYSTEMS

SOPREMA's hybrid waterproofing systems means that our products are designed to work together to achieve high performance solutions that overcome challenges. This includes SOPREMA'S bituminous membranes, ALSAN liquid waterproofing and FLAG single ply membranes.

## OUR EXPERTISE

SOPREMA has a dedicated Technical Team who are on hand to assist with a **free roof survey**. They will take core samples to analyse the condition of the existing roof to form the basis of their recommendation to you. Other considerations will include:

**Improving standards:** The waterproofing system in question may have been down for some time and it's possible it will benefit from thermal or acoustic solutions to bring it in line with current building performance standards. SOPREMA has a range of thermal and acoustic insulation to meet these standards which can be integrated within the waterproofing system.

**The use of flames on the roof:** In many cases flame-free solutions are required which SOPREMA can achieve through it's range of 'Safe2Torch' ALSAN liquid waterproofing and hot-air welded bituminous membranes.

**Water ponding:** The fall of the roof is an important consideration as water ponding can create issues on a flat roof. SOPREMA offer solutions for this such as tapered insulation to increase the fall of the roof.

**Speed of installation:** A key requirements is often speed of installation to reduce, as much as possible, the impact on the users of the building such as pupils, patients and staff. SOPREMA provide a range of waterproofing solutions such as ALSAN PMMA and ALSAN Flashing Quadro liquid waterproofing which is fast curing and perfect for detailing and upstands.

## APPROVED INSTALLERS

Approved contractors are closely evaluated and trained before being authorised to install SOPREMA products. Close partnerships are maintained to ensure the highest standards are maintained.

## REFURBISHING MORE THAN FLAT ROOFS

SOPREMA has an extensive product range which is why we can offer more than just solutions for flat roof refurbishment projects. We also provide:

- High performance insulation for floors and walls through our PAVATEX and EFYOS range
- Acoustic insulation solutions to meet BB93 acoustic requirements within the education and leisure sectors
- Basement waterproofing solutions through our range of CivilRock® systems.

## INTERNATIONAL EXPERIENCE:

SOPREMA products have been used around the world for more than 100 years, from northern Canada to the heat of Arabia and tropical areas. On roofs, roof gardens, basements, reservoirs, tunnels and bridges.

## SOLUTIONS FOR A SUSTAINABLE FUTURE:

SOPREMA continues to invest millions of Euros in sustainable development in the domains of treatment of atmospheric emissions, limiting of water use, waste recycling and the reduction of energy consumption and primary resources.

## SOPREMA'S SERVICE OFFERING:

- Free roof surveys & condition reports which can be used for CIF bids
- Core samples to analyse the condition of the roof & investigate any leaks
- U-value calculations & condensation reports
- Bespoke refurbishment specification

## TECHNICAL SUPPORT

SOPREMA provide support through Technical Continued Professional Development seminars, site visits and inspections, product installation training and a bespoke specification service.
