

Product description:

ALSAN COLOR QUARTZ is a mixture of coloured quartz sand used as decorative scatter material into ALSAN resins.

Application areas

ALSAN COLOR QUARTZ serves as scatter material into ALSAN resins.

Properties

- fire dried
- dust free
- system tested (skid resistance and displacement volume acc. to BGR 181 (occupational safety regulations)).
- controlled quality
- available in 3 colour combinations

Implementation

Substrate preparation:

Depending on the resin used.

Application: The best result is achieved when sprinkling into an ALSAN sealing resin, which is subsequently over sealed transparently.

Consumption

Depending on the application.

Packing

25 kg bag

Particle size 0,4 - 0,8 mm

Colour

Mix M 1003

Mix M 1005

Mix M 1007

Storage, transport & shelf life

In its original unopened package stored in a cool, dry and frost-free place, the unmixed product has a minimum shelf life of 24 months.

Avoid, also on site, exposure of weathering.

Opened packages have a shorter shelf life because they absorb moisture easily and are if the case no longer suitable for applications with synthetic resins.

Safety information and risks

The product does not contain any substance which is likely to be detrimental to your health or to the environment and complies with generally admitted Health and Safety Requirements.

Elimination

Dispose of as construction waste, even if cured resin residues adhere to it.
