

FLAGON SOLVENT 6

Description

Is a solvent-based cleaning fluid used to prepare FLAGON PVC membranes during installation.

Characteristics

Composition	solvents
Application temperature	+5 / +25 °C

Packing & storage

Can 5 l

Minimum 12 months in original unopened packaging, stored in a dry and cool place at a temperature between +5 and +25 °C.

Installation

Use a solvent-proof and lint-free cloth.

Where required, apply liberally to remove contaminants from the FLAGON PVC waterproofing membrane.

Wait for the surface to dry and the solvents evaporate prior to welding.

Special indications

Hygiene, Health and Environment

For more information, please refer to the relevant safety data sheet.

Quality-, Environment- and Safety Management

SOPREMA always recognises as a high level of importance the quality of the products, the environment and safety.

For this reason, we operate independently monitored Quality and Environment Assurance Systems in line with

EN ISO 9001 and **EN ISO 14001**.
