

- Double-sided, high adhesive force, high initial adhesion
- Suitable for rough and smooth surfaces
- Fast and secure gluing of connections without drying time

Packaging

	Mass/box [kg]	Roll length [m]	Roll width [mm]	Box contents [units]
PAVATAPE 12	2,0	10	12	3

Characteristics

Material	butyl rubber tape
Thickness [mm]	3
Minimum application temperature for substrate and ambient with PAVAPRIM [°C]	-10
Application temperature product [°C]	+5 to +30
Temperature resistance [°C]	-40 to +100

Product description

Solvent-free and elastic airtight seal of butyl rubber. The durable tape is suitable for connecting all types of vapour control membranes according to SIA 180 and DIN 4108-7.

Also suitable for water-tight bonding of roofing membranes.

Always consult the local regulations and installation guidelines of the manufacturer.

Health, Environment and Safety

This product does not contain any substance which is likely to be detrimental to your health or to the environment and complies with generally admitted Health and Safety Requirements.

Storage

Store cool and dry, protected from sunlight and humidity.
