Treatment against biological attack (EN 335)	Class 4

Packaging

	DALDECOR
Weight	14 kg/m ²
Number of decks / bag	4 u (1 m ²)
Number of bags / pallet	28 u
Number of m ² / pallet	28 m ²

User application

DALDECOR is used on balconies, patios, roof decks for pedestrian access.

All the applications are described in the French DTU, Technical Guidelines or Technical Approvals. For further details refer to the specific technical information.

Installation

DALDECOR ensures a fast, simple and durable system of suspended deck finishing as well as paving slabs without battens.

Keep in mind that you might need extra tiles if you have to cut any of them to fit odd shaped areas or curves.

After adjustment of support pads, start by laying them at one corner of the area to be covered.

DALDECOR can be taken up at any time to inspect deck, clean or carry out repairs.

Special indications

Hygiene, health and environment:

The product does not contain any substance likely to be detrimental to health or to environment and complies with generally admitted Health and Safety Requirements. For further information, please refer to relevant Safety Data Sheet.

Quality control:

SOPREMA has always attached the highest importance to Quality Control.

For this reason, we operate an independently monitored Quality Assurance System in compliance with **BS EN ISO 9001: 2008**, certified by **BSI Management System**.
